Sinking so close to the shore,
its always been.
Broke down with no hope in hell, this killing me,
your such a sucker for this.

Im cold cutting and im cold as you are, but your lips are
cursed.
and i hate your fake judgement but i still wont say,
i wont say,
your such a sucker for this.

so dont get up and beg its okay, its okay.
its okay, its okay, its okay, i wont say.
your such a sucker for this.

your such a sucker for this, so dont get up and beg,
perfect time to forget, to forget.

sinking so close to the shore,
wishing im not here
