She cracked my heart, but didn't break it  
I have hope that we can make it  
Maybe one day we'll be together again  
But I guess I'll have to wait till then

Girl you know your beautiful  
When I'm with you, I feel whole  
Can't keep my mind off of you  
Can't keep my mind off of you

She cracked my heart, but didn't break it  
I have hope that we can make it  
Maybe one day we'll be together again  
But I guess I'll have to wait till then

Girl you know your beautiful  
When I'm with you, I feel whole  
Can't keep my mind off of you  
Can't keep my mind off of you
