"Brand new heart"

Sooner or later
Right in the prime of life
Heartache and sadness
Lost in the madness
Cuts just like a knife

Dead or alive
I will fight to survive
And the night is still young
'Cos I know, tomorrow I'll be

Breaking in a brand new heart
But it's hard when you are not around
Precious time to stop and start
And it's hard the second time around

Questions and answers
What can the future bring
Take it or leave it
Better believe it
Love, where is your sting

Paying the price
Of the pressure inside
And tonight I will run
'Cos I know, tomorrow I'll be

Breaking in a brand new heart...
