"Everlasting love"

Visit "[Everlasting love](#)" on MotoLyrics.com

In the power, feed the fire
Follow you and you follow me

Try to fight the night as you go
When the time is right
Baby, you'll know

I will turn your world around
I can't imagine

In an everlasting love
Make believe
Heaven ain't enough
Picture you and picture me
You can't run till I set you free

You can turn the tide
Baby, on your own
In the magic night
Boy, you have flown
See, when you break away
Boy, you will find

Cool night, warms a heart of stone
Sooner or later

In an everlasting love...

In the power, feed the fire
Follow you and you follow me

Try to fight the night
As you go
When the time is right
Baby, you'll know

I will turn your world around
I can't imagine

In an everlasting love
Make believe

Heaven ain't enough
Picture you and picture me
You can't run till I set you free

You can turn the tide
Baby, on your own
In the magic night
Boy, you have flown
See, when you break away
Boy, you will find

Cool night, warms a heart of stone
Sooner or later

In an everlasting love...

In the power, feed the fire
Follow you and you follow me
In the power, feed the fire
We'll survive in everlasting love
