Are you coming home  
I see that you've started a band  
Together, let's make it right, let's make it tight  
Show them what we can  
Leave it up to me now  
Come to ???  
Living, giving, yes it's true  
We want some more, more

Please try to calm down  
Please try to give them all we have to  
Show them what we got I say  
Please try to calm down  
Please try to give them all we have to  
Sing with me and I will rime  
La la la la la

Gotta pay the rent  
For the place that we used to have  
Gotta stay smart, gotta save my money  
I will be one of those  
Who can be what they want to be  
Correcting my tie  
Drinking champagne and ice  
That's nice, nice

Please try to calm down...

At times is my podium ???  
Looking around and thinking only it's a dream  
Right now I thought  
What we fought to get us far

Unbelievable, incredible get to, get to

Please try to calm down... (repeat)
