Some days I feel like a queen  
But then again I feel like a slave  
Some days I feel like a star  
But then again I feel like a slave

But I guess that everyone is a little bit schizophrenic  
But I guess that everyone is a fool  
But I guess that everyone is a little bit schizophrenic  
But I think that you are the biggest fool

Some days I feel like making love all day long  
But then again I feel just hate  
Some days I feel like I'm a friend with the whole world  
But then again all I feel is hate

But I guess that...

You are the biggest fool, my friend  
I don't know anyone like you  
(You are the biggest fool, babe)  
(I don't know anyone like you)  
No no no no - you are the biggest fool, babe  
I don't know anyone like you  
(You are the biggest fool, babe)  
(I don't know anyone like you)

Some days I feel like making love all day long  
But then again I feel just hate  
Some days I feel like I'm a friend with the whole world  
But then again all I feel is hate

But I guess that... (repeat)
