Stranger
you came into my life
touched me with sweet sensation.
One starry night we made it right forever
and
Stranger
you cut me like a knife
you showed me my destination -
I thought I knew love but then a true love came my way.

Love isn't love without this feeling

It isn't right
it isn't real at all.
It's just illusion
a dream that will tumble and fall.
Love isn't love when you're not lonely
In every minute that you stand apart.
But when he's near you
you share every beat of his heart.
He hangs on every word that you say

Love isn't love if he's not loving this way.

Lover
you made me realise a new kind of satisfaction

You passed the test
love
this is the best love night and day.
Love isn't love without this feeling

...

Love isn't love if he's not loving you this way.
