Didn't mean to hurt you badly,
Don't think that I am fooling around with you
So sorry for the time you've wasted on me,
So sorry for the things that you've went thru
But I know that the problem's within me,
You're so nice but your love don't deserve me
Or maybe I'm just so scared to fall in love again

I can still remember the days
So many times I've been hurt
So much trust I put on a relationship
So much suffering I brought and the pain still remain
You know I like you but I don't wanna take the risk
So confused and I don't know how to deal with it
I need sometime for a while before I give my heart
away

Don't say goodbye
Don't say goodbye
I need sometime for awhile before I give my heart away

Don't say goodbye
Don't say goodbye
I need sometime for awhile before I give my heart away

Now I know I wasn't thinking before
That's why I'm always ending up with Mr. Wrong
Learning form the past, don't wanna make mistake,
You could be Mr. Right or could be a fake
You know I like you but I don't wanna take the risk
So confused and I don't know how to deal with it
Need sometime for awhile before I give my heart away

Don't say goodbye
Don't say goodbye
I need sometime for awhile before I give my heart away

Don't say goodbye
Don't say goodbye
I need sometime for awhile before I give my heart away
