First, we poison the rocks of blood  
Feel, the fires of hatred  
Blood, raise the blood of sin  
Blood, my bleeding heart

Torment, loves the scums  
Circle of darkness  
The blood, the black, the pain  
In unholy torment

Hell, feel the pains of hell  
Sleep, deep in eternal sleep  
Time, lost in earthly time  
Bleed, bleed, fucker bleed!

Torment, loves the scums  
Circle of darkness  
The blood, the black, the pain  
In unholy torment

The dreams before death  
The rocks of time  
The dust of life  
Blessed be the darkness

The dreams before death  
The rocks of time  
The dust of life  
Blessed be
