You could find a way to ease my passion
You listen to the blood flow in my veins
You hear the teaching of the wind
Tell her why I'm alive within
I can't find the words, my mind is dead

It's better by you, better than me

Guess, you'll have to tell her how I tried
To speak up thoughts, I've held so inside
Tell her now I've got to go
Out in the streets and down the shore
Tell her the world's been much for living more

It's better by you, better than me

Everybody, everybody knows
Everybody, everybody knows

Better by you, better than me
You can tell what I want it to be
You can say what I only can see
It's better by you, better than me

Guess, I'll have to change my way of living
Don't wanna really know the way I feel
Guess, I'll learn to fight and kill
Tell her not to wait until
They'll find my blood upon her windowsill

It's better by you, better than me

Everybody, everybody knows
Everybody, everybody knows

Better by you, better than me
You can say what I only can see
You can tell what I want it to be
It's better by you, better than me

Better by you, better than me
You can tell what I want it to be

You can say what I only can see
Better by you, better than me

Better by you, better than me
You can say what I only can see
You can tell what I want it, what I want it, what I want it
to be
Better by you, better than me
