

Judas Priest "Dead Meat"

Visit "[Dead Meat](#)" on MotoLyrics.com

The hangman's noose won't get me
Gas chambers never stress me
The can line me up against the wall

No firing squad will make me
Confess or even break me
I'll stand alone or not at all

I will not obey
I will not betray
I will not give in
Not while I'm living

No surrender
We never will surrender

We are all dead meat
Cut us, watch us bleed

No shackles made will chain me
No endless pain will change me
The scars will testify this all

No solitary confinement
Will break my strong resignation
I'll die before I will conform
I will not obey
I will not betray
I will not give in
Not while I'm living

No surrender
There'll never be surrender

We are all dead meat
Cut us, watch us bleed
Read in my obituary

Defiance breeds victory

No cage they make can hold me
No law enforced controls me

No trap that's sprung stops me for long

No prison cell contains me
No snare they set will claim me
Relentlessly I'll fight them all

I will not obey
I will not betray
I will not give in
Not while I'm living

No surrender
We never will
Be driven asunder
No surrender
We never will
Raise the white flag
We are all dead meat
Cut us, watch us bleed
We are all dead meat
Cut us, watch us bleed

Indoctrination
Will never
Suppress me
They're seriously mistaken
Cause I'll take them
Down with me
And just before they're finished
They'll scream
Along with me

We are all dead meat
