I know you like it hot
Love to writhe and sweat
You think that this feels good
You ain't felt nothin' yet

Red-hot licks in the palm of my hand
Feel your body quake
As we hit the promised land
I'm heavy duty

We'll rise inside ya till the power splits your head
We're gonna rock ya till your metal hunger's fed

Let's all join forces
Rule with iron hand
And prove to all the world
Metal rules the land
We're heavy duty
So come on let's tell the world

We are defenders of the faith
