

Judas Priest "Heavy Duty"

I know you like it hot
I'd love to writhe and sweat
You think that this feels good
You ain't felt nothin' yet

Red-hot licks in the palm of my hand
Feel your body quake
As we hit the promised land
I'm heavy duty, I'm heavy duty

We'll rise inside you
Till the power splits your head
We're gonna rock you
Till your metal hunger's fed

Let's all join forces
Rule with the iron hand
And prove to all the world
Metal rules the land

We're heavy duty
We're heavy duty
We're heavy duty
So come on, let's tell the world
