

Judas Priest "Island Of Domination"

Visit "[Island Of Domination](#)" on MotoLyrics.com

Beware of their coming
Take heed our time is near
Fatality relinquish not
Brutality in arms doth seek to destroy.

They smashed through the clouds into the light of the
moon
Their steeds were full charging, called destruction and
doom
'twas as if all hell had broke loose on this night
And all in all it was a terrible sight

Now we are taken unto the island of domination

We gotta get, we gotta get, we gotta get out of this
place
There's a man with a needle who's pleading to get at
my face
Hide me and hold me control free as best as you can
It's all becoming too much, I can't cope, for one man
Now we are taken unto the island of domination

Skyrider supersonic flyer
Nightdriver demon of desire
Spinesnapper tried your best to break us
Throatchoker thought that you could take us

The fright of your life, the fright of your life
The fright of your life is here guaranteed
This is no illusion confessing confusion you're freed
Lashings of strappings with beatings competing to win
Oh what a mess I am blessed, dominations set in

Now we are taken unto the island of domination...
