"Night Comes Down"

In the last rays of the setting sun and the past days
Yeah, that's where our memories run
And all of those times still race through my mind
I'm shattered inside to find

When the night comes down
I'm here all alone
When the night comes down
There's nowhere to go

Call me and I'll wait till summer, you never understood
That I'll wait forever for love that's only good
As the light starts to dim, the fear closes in
And the nightmares begin

When the night comes down
I'm here all alone
When the night comes down
There's no place to go

Oh, no, you won't be there tomorrow
Oh, no, say, it isn't true
I can't take this pain and sorrow
Oh, can't you see my heart is broken in two?

Oh, say, it ain't so to fight

When the night comes down
I'm here all alone
When the night comes down
There's no place to go

When the night comes down
I'm here all alone
When the night comes down
But there's no place to go
