[Tipton/Halford/Downing]

I've had enough of being programmed
And told what I ought to do
Let's get one thing straight
I'll choose my fate
And it's got nothing to do with you

The years are flying by and it's time I got high
Took a sample of the good things in life
This is a chance
I'm gonna take
Gonna get out trouble and strife

I grow sick and tired of the same old lies
Might look a little young
So what's wrong
You don't have to be old to be wise

No I don't care that the people stare
Accuse me of going mad
Just get a long hard look into the mirror
Then, tell me now who's been had

The way things are going I won't get to show 'em
Go single all the time's up to me
So it's off with the ties
No compromise
Wanna taste what it's like to be free

I grow sick and tired of the same old lies
Might look a little young
So what's wrong
You don't have to be old to be wise

I grow sick and tired of the same old lies
Might look a little young
So what's wrong
You don't have to be old to be wise

I'm gonna gather my things
Go through the door

Every night I'll live on my own
I'd like to be there
And I'm gonna be there
I got a will of my own

I go as I please
Fend for myself
Pull all the stops, roll the dice
Out on my own, gonna go it alone
When I need it
Then I'll ask for advice

You don't have to be old to be wise
You don't have to be old to be wise
You don't have to be old to be wise
You don't have to be old to be wise
You don't have to be old to be wise
You don't have to be old to be wise
You don't have to be old to be wise
