There's a bird in my tree
Singin' sad autumn melodies
There's a old summer breeze
And it's blowin' away

There's a cloud in my sky
There's a boy who's been on my mind
There's a tear in my eye
And I think it might rain

(Chorus)

Drops of water, drops of water
Fallin' down around fate
Oh, it's nothin' but the rain in my life
Drops of water, drops of water
Fallin' down around my fate
Oh, it's nothin' but the rain in my life

There's a moon up above
Shinin' down on the one I love
There's a pain in my heart
He's gone away

If a star falls tonight
Let it fall and with all my might
I close my eyes, make a wish
That he'll come back someday

(Repeat Chorus)

Oh, it's nothin' but the rain in my life

Drops of water, drops of water

(Repeat & Fade)
