Words and Music by Craig Bickhardt, Don Potter and Brent Maher

I've been lonely
I've been lonely much too long
I've been cryin'
'Til all my tears are gone
If I got to take a slow boat
And sail the seven seas
I'm gonna find someone, I want someone
To give a little love to me
I've been dreamin'
I've been dreamin night and day
I've been feelin'
A little luck is gonna come my way
Now if I got to fly around the world
To see what I can see
I'm gonna find someone, I want someone
To give a little love to me
Oh, I need someone who cares
And I know
I'll find someone somewhere
I've been waitin'
I've been waitin' for a night like this
I've been longin'
I've been longin' for my lover's kiss
I don't need a gypsy
With a crystal ball to see
I'm gonna find someone, I want someone
To give a little love to me
I'm gonna find someone, I want someone
To give a little love to me
I said give a little
Give a little love to me
I said give a little
Give a little love to me
I said give a little
Give a little love to me
I said give a little
Give a little love to me
