She was the only light I knew
She was the real
Sometimes I need to get away and deal
This is the only way I know
This is the real
Sometimes I need to take a day and heal

All I want to do is fall in love with you
Every problem that I have
I want the good, I want the bad
And all I want to do is fall in love with you

Laying beside me you were closer than a kiss
Then we were fighting and the next thing this

All I want to do is fall in love with you
Every problem that we have
I want the good, I want the bad
And all I want to do is fall in love with you

Everything I did was wrong
Everything you said was true
I've been hiding way too long
All I really want is you

If I walked out on the waters of the ocean
Would you follow or complain
My emotion is it rain...

Everything I did was wrong
Everything you said was true
I've been hiding way too long
All I really want is you

All I want to do is fall in love with you
Every problem that we have
I want the good, I want the bad
And all I want to do is fall in love with you

Everything I did was wrong
Everything you said was true
I've been hiding way too long

All I really want is you
