If you look beyond your right
Find the answer by your side
Breathe the air of your soul
Let the music take control
Your hands in the air
Your feet to the beat
Your eyes right on me
(x2)
When it's coming up to you
There is nothing you can do
Now your arms are open wide
You are flying with your mind
Your hands in the air
Your feet to the beat
Your eyes right on me
(x2)
Dance with all your friends
Your friends of the night are through
Come on sing with me
The one I want is you
Your hands in the air
Your feet to the beat
Your eyes right on me
(x4)
