You've got such a pretty smile  
It's a shame the things you hide behind it  
Let 'em go  
Give it up for a while  
Let 'em free and we will both go find it

I know there's nowhere you can hide it  
I know the feeling of alone  
I know that you do not feel invited  
But, come back, come back in from the cold

Tell me how you really feel  
Tell me what is on the inside of you  
All the somethings you conceal  
Only keep away the ones who love you

Step away then from the edge  
Your best friend is life is not your mirror  
Back away, come away  
Back away, come away  
Back away, come away  
Back away, come away

Back away, come away  
Back away, come away  
I am here and I will be forever

I know there's nowhere you can hide it  
I know the feeling of alone  
Trust me and don't keep that on the inside  
Soon you'll be locked out on your own

You're not alone  
You're not alone  
And don't say you've never been told  
I'll be with you 'til we grow old  
'til I'm in the ground and I'm cold  
I'm not sitting up here on some throne  
Like a dog you can always come home  
Dig up a bone  
Look around
