"More Than I Wanted"

Visit "[More Than I Wanted](#)" on MotoLyrics.com

I heard nothing but the empty slap of words
That was all I heard when you spoke to me
I ... I ... I want you

You asked me if I knew what a nipple was for
Put me on the floor and then rape me to explore
And I ... I laugh at you

I had much more than I wanted
I found much more than I gave

The lives we live in are too complex for words
And yet we are turds of great colossal birds
In the sky

Way up high
Cock-a-doodle-do

I found much more than I wanted
I got much more than I gave

Mary had a little boy and a little lamb
Who am ... I ... am ... and ... are you?

I got much more than I wanted
I got much more than I gave
