

# Jude Cole "Somewhere"

Visit "[Somewhere](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Somewhere you and I go  
Making it real, making it whole  
Somewhere you and I know  
We're making believe it's in our control

I wanna reach up  
When the dark night comes  
I wanna take you far from here  
To somewhere we belong

Somewhere there's a rainbow  
Shining along the rivers of old  
Someday I'll be me  
And you won't have to hide the colors you hold

I know it's just like you to say it's okay  
I know you know we'll be together someday  
We'll shine on

Somewhere I'll have you right where I need you  
I don't care what they say  
'Cause you know they don't know  
Just how crazy we are anyway

I wanna reach out  
When the dark night comes  
I wanna take you far from here  
To somewhere you'll see  
Someday we'll belong
