Down the road a piece he was waiting  
Yes, he was waiting and you know me  
I had had my fill of hesitating  
And I always knew it had to be

To love, to love, to love, to love  
All you need's the opportunity  
To love, to love, to love, to love  
Baby don't you make a fool of me

I never will forget our first encounter  
Yes, I'm proud to say that it was all right  
And I was so glad that I had found him  
As ready as I was that night

To love, to love, to love, to love  
All you need's the opportunity  
To love, to love, to love, to love  
Baby don't you make a fool of me

There are those of us too cool for passion  
They're the ones that it could do some good  
And there are those who say it's out of fashion  
They're the ones who only wish they could

To love, to love, to love, to love  
All you need's the opportunity  
To love, to love, to love, to love  
Baby don't you make a fool of me

Baby don't you make a fool of me  
Baby, don't you make a fool of me  
Baby, don't you make a fool of me  
Baby, don't you make a fool of me
