## "The Mad Dog"

The still crap in raging flames  
It almost scorches the sky  
I saw the disappointing year 1997 in it

Telling lies several times  
Doing bullshit over and over  
Breeding diseases which shouldn't be here

Barking and biting the mad dog

The fang is broken but trying not to be caught  
Buying insurance on myself then paying for the life

For myself I cry out  
When I saw my trembling limbs  
My body was full of scars  
The boiling blood push me up  
I set me on fire  
I bark hard and bite everything down

"The weaker dog barks harder that's true"  
I'm so weak you know 'bout it  
Bark it loud shout it loud

Barking and biting the mad dog
