Baby, do you understand,
That I have to say goodbye to you my friend,
Please don't think it's easy for me to do.
You're my best friend and I still love you too.
Into the night I cry, can anybody tell me why,
I've got to leave before my heart will die
I'm so scared (2x)
I'm scared of what the future will bring
I'm scared of almost everything,
Help me...
Baby, am I making a big mistake,
Am I chasing a dream, is it better for me to wait.
But I can't ignore it, I keep feeling blue.
The world invites me to find love that's true.
Into the night I cry, can anybody tell me why,
I've got to leave before my heart will die.

I'm so scared (2x)
I'm scared of what the future will bring,
I'm scared of almost everything,
Help me...
Who am I
Who am I now
Who am I, here will I go
Who am I, who wants you, I do
I'm so... (2x)
I'm so, so, so, so scared
I'm so scared (2x)
I'm scared of what the future will bring,
I'm scared of almost everything, help me...
I'm scared of what the world might give,
I'm scared to lose the life that we live,
I'm scared to make a big mistake,
I'm scared, just wanna feel this faith,
I'm scared (2x)
I'm scared of what the future will bring,
I'm scared of almost everything, help me
