Come and see me feel me  
Now or never  
Heal me thrill me  
I hope forever  
Heal me tonight- will be by my side  
My Love ...  
Is it true I can rely on you  
When I saw you there for the first time  
Standing alone at the night train  
I've been laying my heart on the line  
This love will last for a life time  
I'm missing your touch give me your sign  
With you I feel eternity  
You will never be alone  
Come on let us face the storm  
We can just rely on love  
I will never break your heart

Chorus:

Come and see me feel me ...  
Show me your love and emotions (2x)  
I'm holding on for this moment we'll never be apart  
Wanna live and love the desire  
I wanna see your love growing higher  
I wanna feel you straight from the heart  
You will never be alone ...

Chorus:

Come and see me feel me  
But darling thrill me steal my lonely heart tonight  
Can't you see it I love you more than words I can say  
Heal me tonight will you be by my side, my love  
Is it there I can rely on you
