"We Gonna Stay Together"

Let me take you by the handwalk
I will stay with you
And you know it's true
I am counting every minute
When you by my side
And just hold me tide
'cause our love is everlasting
If we spread our wings
Show you the way to the stars
We gonna stay together
Together day by day
'Cause we are strong together
We will never
Never be apart
We gonna stay together
Together day by day 'Cause we are strong together

Now or never
Never be apart
I will hold you in my heart boy
When you by my side
It would be alright
'cause our love is everlasting if we spread our wings
Show you the way to be free
Refrain
And I have to know the reason
Sometimes you are still
A mystery
What do you fell inside
So deep inside
Don't break my heart in two
Refrain

Show you
Show you the way to the stars
