If i had the chance to say, "remove the walls  
Let's clean the slate"  
Would it make us new

Should we find a way to start without the mess we've  
made this far  
Would it make us new

I've seen this movie once before  
Don't need to see the end  
No

I can't get away and you will never leave me  
Addicted to the game  
It's time to make it easy  
I can't get enough  
So i have to do the right thing and give you back 'cause  
i'm done stealing

If someone looked into our case and said our files  
could be erased  
Would that make us new

Just tell me when and where to sign  
I'll check in and do the time  
And tell the truth

'cause i've seen this movie twice before  
Don't need to see the end  
No

I can't get away and you will never leave me  
Addicted to the game

It's time to make it easy  
I can't get enough  
So i have to do the right thing and give you back 'cause  
i'm done stealing

I know that we can make our dreams come true  
Is a crime committed we misunderstood  
Oh yeah

Oh yeah

'cause i'm done stealing

If a jury read your mind you'd go away for quite some  
time  
Would that make us new

I can't get away and you will never leave me  
Addicted to the game  
It's time to make it easy  
I can't get enough  
So i have to do the right thing and give you back 'cause  
i'm done stealing

I can't get away and you will never leave me  
Addicted to the game  
It's time to make it easy  
I can't get enough  
So i have to do the right thing and give you back 'cause  
i'm done stealing

Truly that is something i believe
