So soon, we will learn to forget
Bad times, the rules and regrets
One day, they won't reach out for you

So you, putt out the fires you set
As smoke fades from your last cigarette
You're a mess, but yes, you're beautiful

Oh, come on down, we can drown in this water
It's only gonna set us free
Come on down, we can drown in this water
You've been praying for a remedy

Who, really cares about fatal mistakes
Trailer parks dreams don't carry much weight
In the long run you've got nothing to prove

So go, run while you can still get away
Take a breath while it's still yours to take

You're a mess, but yes, you're beautiful

Oh, come on down, we can drown in this water
It's only gonna set us free
Come on down, we can drown in this water
You've been praying for a remedy

You've been praying for a remedy
You've been praying for a remedy
So who, really cares if you make a mistake

Oh, come on down, we can drown in this water
It's only gonna set us free
Come on down, we can drown in this water
You've been praying for a remedy

Oh, come on down, we can drown in this water
It's only gonna set us free
Come on down, you know that you want it
You've been praying for a remedy
