Verse 1:

Opened the door felt the cold rush in
I let it go with no warning

I felt like a ghost, I'm out of my skin again
So self-exposed wanted you to see

I heard your voice
I made you cry

I hurt you one too many times
But I'll never... I'll never let you down

Chorus:

When worlds collide
I'll stick around
And never let you down

All went away
But I'm still in town
And I'll never let you down

Verse 2:

Not innocent I guess I let that show
I wear those sins everybody knows

So many times you reached out for me
And I let you go it was easy

I had a choice I realize
I hurt you one too many times

But I'll never... I'll never let you down

Chorus:

When worlds collide
I'll stick around
And never let you down

All went away
But I'm still in town
And I'll never let you down

Bridge:

Never you let down again
Never you let down

I'll never let you down

Chorus:

When worlds collide
I'll stick around
And never let you down

All went away
But I'm still in town
And I'll never let you down

Never let you down

Never let you down

All went away
But I'm still in town
And I'll never let you down
