Just put this beneath your tongue  
Baby steps won't go wrong  
You know that your safe right now  
Oh, don't you trust me?

There's no need to be concerned  
We've used this once before  
Understand you have no way to back out now

Open the door, yeah  
Just let the rush in you  
It's only one night, yeah  
What harm could I bring you?

It's only your life  
It's all in your mind

Keep drinking the cheap champagne  
Soon it'll taste the same  
Logic will dictate truth  
No, don't you trust me?

I promise it won't take long  
You'll be singing a different song  
Understand you have no way to back out now

Open the door, yeah  
Just let the rush in you  
It's only one night, yeah  
What could I bring you?

It's only your life  
It's all in your mind

Out of control  
You're losing your mind  
It Feels so good  
You feel so alive

Out of control  
You're losing your mind

It feels so good  
You feel so alive

It's all in your mind  
It's all in your mind

Open the Door, yeah  
Just let the rush in you  
It's only one night, yeah  
What harm could I bring you?

Open the door, yeah  
Just let the rush in you  
It's only one night, yeah  
What harm could I bring you?

It's only your life  
It's all in your mind  
It's only your life (open the door, yeah)  
It's all in your mind (open the door, yeah)
