An everlasting cigarette
That's all you want
Waiting for a bus to take you back home

'cause tuesday came too soon
Wednesday left you feeling used
Oh, tomorrow you hope at least it's warm

Don't you want to live a simple life?
You pray for change before you turn out the lights
Burn a bridge every time it feels right
You don't wanna forget where you're from

So tired of feeling cheap
You're always in need in a sin
At least that's what you think

You've got a beast to kills
So empty your gun
Good intentions, they weren't quite enough

Don't you want to live a simple life?

You pray for change before you turn out the lights
Burn a bridge every time it feels right
Don't you wanna forget where you're from?
Don't you wanna forget where you're from?

You just wanna live a simple life
You pray for change before you turn out the lights
Burn a bridge every time it feels right
You don't wanna forget where you're from

You just wanna live a simple life
You pray for change before you turn out the lights
Burn a bridge every time it feels right
Don't you wanna forget where you're from?
Don't you wanna forget where you're from?
Don't you wanna forget where you're from?
