It's a New World Lyrics
How wonderful that I'm beholding
A never-never land unfolding
Where we polish up the stars
And mountains we move
In a life where all the pleasures
We will prove.
It's a new world, I see
A new world for me!
The tears have rolled off my cheek
And fears fade ev'rytime you speak
A new world though we're in a tiny room
What a vision of joy and blossom and bloom!
A new found promise
One that will last
So I'm holding on and I'm holding fast!
You've brought a new world to me
And that it'll always, always be.
