Is what is what it was?
Was what was ever really what it is to me today?
Is what is what is was?
CHORUS
Is anything
Is anything
Is anything
What do you when you don't/
What will you when you won't
Lay with me stay with me...fuck me baby
Is what is what it was?
CHORUS

Florida and blonde at fifteen, before
The sinking in of things, before the critics in the wings
And the constant compromise
How can we have wondered about so much for so long
And received so few answers? How can we
Have wondered about so much for so long
And received so few answers?
