Bouncers
hear these words
this is the end of your
meat head world
here today
dead tomorrow
your the plague of shows
the nightmare's out
punch me in the pit
makes me wanna kill
you can bully us for so long
im gonna laugh when your gone
your there
protect no one but the promoters
money and cut
kick my ass if i stage dive
go through my shit
before i go inside
you pay at the door
they knock you down
take your scene back
show them how
kill security now
