However you want it , however you need it

I can provide it baby as long as you need it

I'm willing to give you me in ecstasy

for as long as you keep tellin me

{ It's a real life testimony , your guy's chained in

Searchin for the key of life , tryinna find my placement

Goin through these changes , my heart's almost
stranges

Caught up on that status quo , drop me cause I'm
famous }

The type that wanna live the life - shrimp , steak ,
patron on ice

Quiet conversations just for two under candlelight

Maybe my potential wife , gotta make it past tonight

I see a real future with you B and this is j-u-ice

Know how to make me smile , I'm throwin in my towel

It's whenever when you need , I'm here to hold you
down

To build and keep you around , to cherish what I found

To open up my trust and do it for us

However you want it , however you need it

I can provide it baby as long as you need it

I'm willing to give you me in ecstasy

for as long as you keep tellin me

It's hard to open up , let my feelings show

I gotta let it go cause if I dont , I'll never grow

A real situation is what I'm facing with

Always had a problem with trust in my relationships

I start second guessing right away then I start to shy
away

Feelings become distant , our love starts to fly away

Don't need a chick to lie to me , just treat me like your
diary

Just open up to me and see the passion that's inside of
me

We fightin like a rivalry , wish you stayed beside of me

No matter what the others say , she always down to
ride for me

For these feelings I can't pretend , graduated from
friends

She became a part of me and I kept her closely within

However you want it , however you need it

I can provide it baby as long as you need it

I'm willing to give you me in ecstasy

for as long as you keep tellin me

Love , life - I'm not used to

Willing to give it all if the feeling's mutual

Protect it from the heart and hold me in your arms

Be my ray of sun in the midst of the storm

No matter what I needed , you always achieved it

Stored faith in my heart , you made me believe it

We matured and succeeded , we battled off these
demons

Just a touch of you was all I really needed
