[verse 1]

girl i been contemplatin
patiently awaitin for your love
to rub me
hug me
touch me
squeeze me
tease me please me
running out of breath to say just what you mean to me
if i could take this pain
and turn it back
to tha rain
tha same
that hits your window pane
when we make love
in early spring
time over again baby
i stopped lovin my crew
exclusively love you
to see if love was true
but all you do is make a fool of every single thing I'm
tryin to do for you

[chorus]2x

cuz you don't even love me
and you don't even trust me
then how can i live for you
girl i would kill for you

[verse 2]

baby
i call you on the phone
hopin you all alone
and see if we could bone
but your not even there
sometimes i wonder if you
give a damn
or do you wish it was him (yeah)
nobody else but you can have me like you do
you make me feel so true
thats why i love you still and i guess i always will

[chorus]2x
cuz you don't even love me
and you don't even trust me
then how can i live for you
girl i would kill for you

[verse 3]
if i had one last breath
and you cried out for help
i know myself
i travel cross the seven seas
so you could breath
even if it meant tha death of
JUICE
im like that dude from saw
i cut my whole arm off
crawl on my hands
and even before i rest in peace
look you in yo eye
before i die
and tell you that
im sorry

[chorus]4x
cuz you don't even love me
and you don't even trust me
then how can i live for you
girl i would kill for you

[fade while he talks]
