Ohh, JU-ICE, got my nigga Heron in the house with me tonight. Conglom in this bitch, wattup Marvo Whole crew in this motherfucker, for real. Malik when is you gonna holla at yo boy man? I told you niggaz what the truth was

[Juice]

I visualize a time when we can stop hustlin  
A dozen cops while we on the blocks rock smugglin  
And these little gray stones is so addictive  
Niggaz even paid with they homes, is some sick shit  
But in the hood, you either known them or you bail  
them out of county  
Shit, you either own them, or you sell them for a bounty  
Some even do both  
Or crook it up too, shit all three like Kukoc  
All this income, and still the block starvin  
No monopoly, it's upscale gardens, not Marvin  
The hood's real loaded up, my clip slaughter jerks  
No boards to walk, you lucky if the water works  
As I move on, I start to see the law love it  
The hood's broken and I'm partially the cause of it  
Very few get to start in this game  
It's like the trey payin for profit, it's hard to explain

[Chorus]

I sold a lot of pounds, in and out of town  
A nigga gotta clown. \*I'm sick of hustlin\*  
I moved a lotta weight, through a lot of states  
I could die today. \*I'm sick of hustlin\*  
I moved a lotta bricks, screwed a lotta chicks  
Viewed a lotta whips. \*I'm sick of hustlin\*  
I break a lotta rules, I shake a lotta fools  
I paid a lotta dues. \*I'm sick of hustlin\*

[Marvo]

I'm sick of hustlin, I had enough enough of this  
Stuffin the bricks, the cops, they try to cuff me quick  
And throw your face in the mud, why is you fuckers sick

Before I go to jail, homie I'ma up the fifth  
It's so unfortunate, my actions brough me up to this

Just know there's other people like me and they stuck in  
this  
State of mind, the blind meetin the blind  
Everybody get they information from the grapevine  
We could make it but niggaz just hate tryin  
I own the cops, I'm 'bout to witness a hate crime  
They make time, according to what the jakes find  
Hustlin is like, squeezing grapes tryin to make wine  
I'm tryin to bake a whole lotta bread and break mine  
I'm on the block, cops come, it's hit the gate time  
Hop in the truck, and we hit the interstate flyin  
I try to stop but the hustler in me ain't dyin

[Chorus]

[Juice]

And Ma\$e even said he bought a drop to tour on  
But Ma\$e ain't even go, that's a oxy moron  
Bullets penetrate the chest of the innocent  
Half the brock runners, only strip they ever get is in  
My nigga Heron, he goes to fight in Iraq  
He get right back and have to fight blacks  
So you could go elsewhere, come back, no healthcare  
Wife on welfare, they tell you to put yourself there  
So we slang 'caine, gangbang, remain sane  
If it's even possible, a nigga gotta maintain  
We put little bags of rocks in the hands of children  
And conceal them while they're standing by abandon  
buildings  
The richer we get, the broker the hood  
Tyson is broke but Oprah is good  
Touching the fo-fo, clutching it so so tight  
I don't wanna have to hustle no more, right

[Chorus]
