If life gave you one day,
The eyes to see through everything,
I'd hold you and cry your name,
Let you sleep in my pain,

Your fears growing older,
Forgive the past, it's over,
Take this by your self,
It's yours and no one else,

You give your life,
Reaching out to help,

You're the brightest star,
From where we are,
You light our sky,
With who you are,
So take this time,
We're holding onto you,

You see something's missing,
The world doesn't seem like it's listening,
But when you are lost,
We hear, so cry,

You give your life,
Reaching out to help,

We've learned to fly,
Now it's your time,

'Cause you're the brightest star,
From where we are,
You light our sky,
With who you are,
So take this time,
We're holding onto you,

The naked flame, the fallen seed,
We know your name, we know your need
Now here we stand,

Holding onto you,

You're the brightest star,
No matter where you are,
The tears we cry are rivers of your life,
Your life,
The brightest star,
No matter where you are,
The tears we cry are the rivers of your life,

You give your life,
Now it's time to live,
