Real taylors smoke good weed and drink gin
Now it's hard to name a country i aint been
Party all night, party till the day end
Do a show, get some racks, spend it all, get it back

A space ship high past that warm moon
She turned up, say she rolling up a green hoe
That bitch only come around when the weed spark
I'm on smoking on some shit you ain't never had
Say it like you from the bay, baby girl you hella bad
I'm doped up hard top off the old school,
gas station, 7 digits of a low fuel
Big bank take little bank nigga cash,
You want a beef, Ocho you don't get a pass
G shit high 48 hundred dough
Cali street weed, I don't do the medical
Ballin' like a nigga playin 4 quarters, my old head
