Money, love i never wanna give you up
youÂ,re like a million dollar rush
running my brain
waste away, on nights we canÂ,t remember
i floated through december
on a desolate wave
iÂ,m not alone, i hear a voice
iÂ,m not alone

elevating higher , than iÂ,ve ever been before
tripping on a wire, catch you when you fall

the temptress, resting on my inner strength
put my loving to the test
drives me insane sheÂ,s never alone

sheÂ,s got me even higher
than iÂ,ve ever been before
tripping on a wire, can u catch me when i fall

and now a crossfire is burning outta my soul
and this desire is spinning outta control
iÂ,m going down, down, down
you made me lose myself

elevating higher, than iÂ,ve ever been before
tripping on a wire, can u catch me when i fall
sheÂ,s got me even higher,
than iÂ,ve ever been before
tripping on a wire, can u catch me when i fall
