"All For Love"

No one knows
Why you save
All your lows
For the days

Well you were quite
The love interest last night
Last night, oh

And it's all for love
Yeah it's all for love
Alright

You've spent many nights
Sleeping
Face down again
For fear

For fear
That your heart might leap clear
That your heart might leap clear
And you'd die

And it's all for love
Yeah it's all for love
Alright

Bathed by firelight in this town
