The face in the moon
I can see it in the water, too
I can see it just the same as you
But I can't be there with you

Sleepy eyelids
I could write a song for you
I could buy you roses, too
But I can't be there with you

Water, leads to water
Water leads to rivers leads to oceans leads to you
But are you in love with someone,
Are you in love with someone new?

Oh, you,
Such a funny girl but oh, so blue
What are you supposed to do
When I can't be there with you?

I'm the man in the moon
Far away it can't be true
And I could say the same for you
And why on earth would you?

Water, leads to water
Water leads to rivers leads to oceans leads to you
But are you in love with someone,
Are you in love with someone new?

Are you in love with someone,
Are you asleep with someone,
Are you in love with someone new?
