Isn't every day
exactly what we make
mistakes, mistakes.
and off and on the same day
we'll make the same mistakes
let's get to know them then,
let's get to know them then,

So let us create what we need
each other to be.
And I'll be what you need
for me to be.

If your dreams are far too real
let me in them then
let me in them then.
With your dreams I'll make a deal
I'll slowly change the feel
I will soften them then
I will soften them then

So let us create what we need
each other to be.
And I'll be what you need
for me to be.

And I will rub hope
on a small little note
I will warm them
I will warm them

and I will know I will go
and sing something that I know
could be the end then
could be the end then.
