She said she wouldn't stay  
She said she couldn't say  
She told me she would die for love

She said she would go someday  
She said she would go away  
She told me she would die for love

Don't you think he knows?  
Don't you think he cares?  
Don't you think he dreams?  
Don't you think he cries?

She said she would run away  
She said she would fly away  
She told me she would die for love

Don't you think he knows?  
Don't you think he cares?  
Don't you think he dreams?  
Don't you think he cries?
