A way to think  
It's like a fairy tale  
In the name of love...

One look, one touch  
Emotions start to burn  
The skies above...

You and me...  
Is more than life  
I'll be your man, you'll be my wife  
Just you and me...

You and me...  
Is more than games  
We like the lights  
We love the flames  
Just you and me...

All around the world keeps moving on  
And all those lonely nights are gone  
Just you and me...

We'll be tight  
And strong together  
Let's go on like this forever  
Forever young  
Just you and me...

Our hearts of gold  
Our bodies never have been cold  
Within the nights...

No fear, no pain  
All is pure  
And right again  
Let's take the chance...
