Sweet night and our chemistry
Make my rapid heart beat naturally
And our organic minds, while the others climb
We contemplate, What is time

The night is dark and the lights are low
But the laughter rises, and continues so
Time flies by

Sweet night and our chemistry
Make my rapid heart beat naturally
And our organic minds, while the others climb
We contemplant, What is time
Time flies by

Lie on the porch with my head in your lap,
This is a simple combination that makes me so happy.
And these could be the happiest days of my life.

YEAH, lie on the porch with my head in your lap,
This is a simple combination that makes me so happy.
Yeah. these could be the happiest days of my life.

The night is dark and the lights are low
But the laughter rises, and continues so
Time flies by

Sweet night and our chemistry
Make my rapid heart beat naturally
And our organic minds, while the others climb
We contemplate, What is time
Time flies by time flies by
