I awoke to dreams passing by at the speed of 65
It took a while to realize where I had spent the night
Through sunlight squint my eyes to see you by my side
Just sit back and enjoy the ride

I don't need a bed
No I'm not tired yet
So go full speed ahead
We'll end up where we get
And as we bid adieu
To the towns that we're passing through
I don't care where we're heading to
I will go anywhere with you

Looking down as we fly through the night over the
Rochester skyline
It all looks different from this height, a city simplified
Every home a tiny light with a family inside
So we wave goodbye tonight

I don't need a bed
No I'm not tired yet
So go full speed ahead
We'll end up where we get
And as we bid adieu
To the towns that we're passing through
I don't care where we're heading to
I will go anywhere with you

And the bags stay packed for weeks at a time
Even though I've been back I leave them
'Cause I don't know when I'll be taking off again

I don't need a bed
No I'm not tired yet
So go full speed ahead
We'll end up where we get
And as we bid adieu
To the towns that we're passing through
I don't care where we're heading to
I will go anywhere with you
