I saw you in a caf?
you looked like you had a million things to say
all that would blow my mind
and then there's the way that you moved
like a wild cat caught in a cage
the way you fingered the page
i wanted to be the book you were reading
all day i - all night i - wondered about you
oh darling i want you so bad i can hardly breathe
i feel you right in front of me
desire holds me captive to the possibility
of an evening of rapture between you and me
all day i - all night i - wondered about you
oh darling i want you so bad i can hardly breathe
i feel you right in front of me
i need you to need me

i want to taste your skin
i want to take you in
i want to touch you and roll back
